Sandra L. Calvert, the Director of the Children's Digital Media Center, received her Ph.D. in Developmental and Child Psychology from the University of Kansas. Dr. Calvert is a Professor of Psychology and a core member of the Communication, Culture, and Technology Program at Georgetown University. She is author of Children's Journeys Through the Information Age (McGraw Hill, 1999), and co-editor with Amy B. Jordan and Rodney R. Cocking of Children in the Digital Age: Influences of Electronic Media on Development (Praeger, 2002).

Dr. Calvert's interdisciplinary work in the information and technology area, spanning the fields of psychology, communications, linguistics, and education, seeks to improve the well-being of children and adolescents by bridging the gap between knowledge generation and knowledge application. For example, she examined social policy issues revolving around the Children's Television Act, in which broadcasters are legally required to provide educational and informational television programs for children. At CDMC, she is also examining the roles that interactivity and identity play in children's learning from educational media and from heroic portrayals of DVD content.

Dr. Calvert is a fellow of the American Psychological Association. She served on the Advisory Panel for Excellence in Children's Television for the Annenberg Public Policy Center at University of Pennsylvania, on the Advisory Board for the Center for Media Education, and on the National Academy of Sciences Committee on Tools and Strategies for Protecting Children from Pornography and Other Objectionable Content on the Internet. She has consulted for organizations such as Nickelodeon Online, Sesame Workplace, Blue's Clues, and Sega of America to influence the development of children's television programs, computer and Internet software, and video games.
